Saturday and Monday Sessions Are New in Order

TO STOP TAPPING OF WIRES

Mr. Barkworth Makes His Usual Objection and as Coual He to Promptly has Upon.

Lassuso, Mich., May 10.—Saturday and Monday sessions will be held by the legisture during the balance of the pre-ent session, both senate and house having today adopted resolutions to such effect. Considerable time was wasted in both branches in discussing the matter and many of the members refrained from voting. Of the thirteen votes cast against the resolution in the house three were those of republican members.

The notorious bill carrying an appro-priation for dredging Black river, re-cently passed by the house, came up today when a resolution was introduced and adopted recalling the bill from the senate. It was adopted and Mr. Moli, the introducer of the bill, had a spasm. This afternoon he attempted to have the request for the return of the bill with drawn, but he failed and he is disconcolate in consequence.

The committee on state affairs reported, without recommendation, the ball providing for a state weather service and the bill was tabled, where it is like-The same committee rely to remain. The same committee re-ported favorably on the state prison ap-

propriation bill.

Among the bills passed during the morning session were the following: The Fremont charter amendment bill; a The Fremont charter amendment only a bill providing for a penalty of from \$50 to \$500 and imprisonment for two years for persons "tapping" telegraph wires, injuring property of a telegraph com-pany and for reading or copying un-authorized, messages from telegraph wires; a bill protecting, by lied, the rights of mechanics and other persons who furnish material, etc.; a bill relative to the title of real property by descent

At the afternoon session the following bills were passed: A bill providing for the sale by the board of trustees of the Michigan asylum for the insane of land held by the state for the use of the asyium, and to expend the proceeds of such sale for the purchase of other lands. A thill providing for the incorporation of the fraternity of United Home Pro-tectors. A bill to provide for an ap-proval fee for approving articles of in-corporation, renewal or amendment to the charters of mutual insurance companies. A bill relative to bills of ex-change and promissory notes. A bill increasing the capital stock of the Happy Home clubs of Michigan to \$25,000. A bill amendatory of the city of West Bay City. A bill authorizing the island of Grosso Isle, in Detroit river, and towns one mile square to incorporate as villages under certain con-ditions. A bill providing for a separate board of control for the industrial home

for boys at Lansing.

The bill providing for a separate board of control for the industrial school for boys at Lansing came up in the house late this afternoon, and was the signal for a long speach from Mr. Barkworth. who said that while it would undoubt-edly pass, he thought it was a most foolish act on the part of the repub-licans. Mr. Newkirk replied to the gentleman from Jackson, and the bill was

passed by a strict party vote.

The bell providing that employers of female hip shall provide scats for such help in sucres, factories, etc., came up in the house this afternoon, when it was found to be very poorly constructed and not providing for what was intended. Mr. Anderson, realizing that in its present form the bill was useless, had it tabled, and it will probably be referred back to the labor committee for revision.

The entire evening session of the house was spent in committee of the whole with W. W. Ferguson, the colored member, in the chair. No important business was transacted. Considerable testimony was taken before the senate lator committee on the Sunday closing of barber shops, the majority of the friends of the bill being from Detroit.
